"I understand"

We require at least **14 days lead time** before maintenance services can begin to allow our scheduling dept. time to coordinate with technicians. We make every effort to open/close pools on the dates requested, but flexibility is necessary during the busier months.

Return Trip Charge \$100 - It is (non-Winter Maintenance) customer's responsibility to remove all water and leaves from pool cover. Water level must reach middle of skimmer so equipment can be started. Leave out opening supplies (handrails, ladders, baskets, etc.). Ensure equipment has power. Ensure pool area is accessible. If the above is not done, a return trip fee may be assessed so we can complete the job.

Freezing Temperatures - If closing services are performed after the first freezing temperatures of the year, we assume no liability for damage that may occur to pipes, tile, pool surface, fixtures, or any other equipment as a result of ice buildup, expansion, or any other problems related to the cold weather.

All debit, credit, digital, and electronic payments are processed via PayPal and **incur a 3% processing fee**. If you choose to pay with a check, whether physical or electronic, no work will begin until that check has completely cleared our bank.
